The Project:

Modernizing geodesy education in Western Balkan with focus on competences and learning outcomes - GEOWEB

Internal dissemination seminar
Belgrade, Marth 16th

Regarding to the WP 9.5 GEOWEB project was presented to the staff of the Department of geodesy and geoinformatics at the Faculty of Civil Engineering. Local coordinator, prof. Branko Bozic explained the main activities of the project and benefits to be obtained in project participation. The project objectives and the role of the Department in the project were explained in detail. Spatial attention was paid on the equipment to be purchased, new teaching philosophy to be introduced having in mind e-learning technology and PBL teaching methodology that should be implemented into the learning process at the Department. Four training courses will be of great importance to the young teaching assistances planned to be send to Ponferada, Wien, Sarajevo and Tirana.
